Which Brands Make the Most Reliable Appliances?

CR's Appliance Brand Reliability Rankings can help you avoid problem-prone models—and the cost of repairs

By Consumer Reports
June 12, 2024

When it's time to invest in a new refrigerator or dishwasher, you want to get one that will stand the test of time. The best way to make sure you're not shopping out for another replacement so soon? Buy from a reliable brand. Factoring in predicted reliability—based on exclusive data from CR's member surveys—you'll save you money over the long haul and keep refrigerators, washers, and other appliances out of the waste stream and landfill. CR's sixth annual Appliance Brand Reliability Rankings show how reliable a brand is relative to another across multiple appliance types: refrigerators, dishwashers, over the range microwaves, ranges, cooktops, wall ovens, washing machines, and dryers. The results are based on survey data we collected from our members on 47,629 kitchen and laundry appliances purchased new between 2013 and 2023.

To gauge predicted reliability, we ask members whether their appliances broke or stopped working as well as they should. We use that data to estimate how a given brand's new models will hold up over the first five years of use. The chart only includes brands for which we have reliability ratings in at least two categories of major appliances.

The predicted reliability ratings for appliances from each brand are an average of the ratings for all types of that brand's appliances (for example, front loaders, top loaders, etc., for washing machines). For each brand, the average predicted reliability score has been adjusted to account for differences among types of appliances. A brand that earns relatively high marks for its French-door refrigerator, for example, will get a bump in its score because French-door models are typically less reliable than other refrigerator types. Without this statistical adjustment, a brand that makes only top-freezer refrigerators—the most reliable type—would have an unfair advantage over brands that make multiple types.

Yet again, Speed Queen sits atop our rankings and is the only brand to achieve a top Overall Score. And once again Viking landed at the bottom of our chart, joined this year by another elite brand, those who also received an unfavorable Overall Score.

The luxury appliance brand Gaggenau debuted on our chart this year, tying with two other brands for second place. Gaggenau has three product categories in our brand reliability ranking calculation: dishwashers, cooktops, and wall ovens.

Fisher & Paykel saw the largest advance between last year's and this year's rankings, moving up seven spots from last year's ranking to a favorable ranking to one that is just midrange.

Keep in mind that our predicted reliability ratings are not an indicator of performance. So even when you settle on a reliable brand, you'll want to check our full appliance ratings to find a specific model that performs well in our rigorous lab tests. In our ratings of washing machines, dryers, and dishwashers, look for our Green Check designation, which identifies appliances with a lower environmental impact.

Appliance Brand Reliability Rankings

Rank	Change	Brand	Average Predicted Reliability Score (0-100)	Refrigerator	Dishwasher	Over-the-Range Microwave	Range	Cooktop	Wall Oven	Washing Machine	Dryer

27	▲▲	Kenmore	34	34	34	34	34	34	34	34	34

Empty spaces indicate that either the manufacturer doesn't make that appliance or we have insufficient data to calculate a reliability rating. Data is not for the rankings.

The image shows a digital product page for the LG LDFC2423V dishwasher. At the top left is the LG logo. The main content area has a green header with a checkmark icon and the text 'CR Consumer Reports RECOMMENDED'. Below this, a text block states: 'After extensive testing and research, Consumer Reports determined this product to be:'. This is followed by three bullet points with checkmarks: 'TOP PERFORMING', 'RELIABILITY', and 'ENERGY EFFICIENCY'. A section titled 'About CR Dishwashers Testing' lists: '141 RATED', '18 RECOMMENDED', and '2463 HOURS OF TESTING'. The product name 'LG LDFC2423V' is prominently displayed. Below it, a horizontal scale from 0-100 shows the 'OVERALL SCORE' of 73, with '45 Lowest Rated Dishwasher' and '81 Highest Rated' markers. A note says '(As of June 2024)'. Under 'Highs', there are three bullet points: 'Wash performance is excellent', 'Energy efficiency is excellent', and 'It was judged very good for noise'. Under 'Lows', there is one bullet point: 'A manually cleaned filter'. A 'CR Consumer Reports RECOMMENDED' badge is overlaid on the bottom right of the product image. At the bottom of the page, a small text line reads '*Consumer Reports does not endorse products or services' and the model number 'LDFC2423V' is shown.

The screenshot shows a Consumer Reports review for the LG LDTH555NS dishwasher. The page is predominantly white with green accents. At the top left, there is a green checkmark icon and the text "CR Consumer Reports RECOMMENDED". Below this, a text box states: "After extensive testing and research, Consumer Reports determined this product to be:" followed by three bullet points: "TOP PERFORMING", "RELIABLE", and "ENERGY EFFICIENCY".

In the center, the product name "LG LDTH555NS" is displayed. Below it is a score of "73" in a green circle, with "OVERALL SCORE" written above it. A horizontal scale from 0 to 100 is shown, with a yellow bar from 45 to 82. The text "Lowest Rated Dishwasher" is at 45 and "Highest Rated" is at 82. Below the scale, it says "(As of November 2024)".

There are two sections: "Highs" and "Lows". Under "Highs", there are three bullet points: "Wash performance is better", "Energy efficiency is best", and "It was judged better for noise". Under "Lows", there is one bullet point: "A manually cleaned filter".

At the bottom of the review, it says "For a full review of this product, please visit consumerreports.org".

On the right side of the screenshot, the back of the silver dishwasher is visible. It features the same "CR Consumer Reports RECOMMENDED" logo as seen in the review.

The image shows a Consumer Reports product review page for the LG DLGX5501W clothes dryer. The page features a green header with the Consumer Reports logo and a checkmark icon. Below the header, the product name "LG DLGX5501W" is displayed. A large green circle contains the overall score of 85, which is positioned above a horizontal scale from 0 to 100. The scale indicates that the product is in the "Highs" range, between the lowest rated clothes dryer (44) and the highest rated (85). To the left of the score, there is a section titled "After extensive testing and research, Consumer Reports determined this product to be:" followed by three bullet points: "TOP PERFORMING", "RELIABILITY", and "CONVENIENT TO USE". Below this, there is a section titled "About CR Clothes Dryers Testing" with three statistics: "192 RATED", "26 RECOMMENDED", and "1063 HOURS OF TESTING". The "Highs" section lists three key features: "Very good in drying.", "Very good in noise.", and "Automatic dryness control recognized already-dry loads and turned off dryer within 5 minutes." At the bottom of the page, there is a note: "For a full review of this product, please visit Consumer Reports." The product image is shown on the right side of the page, with a green banner at the bottom that says "RECOMMENDED".

The image shows a screenshot of a Consumer Reports product page for the LG LW1222IVSM air conditioner. The page features a green header with the Consumer Reports logo and a 'RECOMMENDED' badge. Below the header, there is a section titled 'After extensive testing and research, Consumer Reports determined this product to be:' followed by three bullet points: 'TOP PERFORMING', 'RELIABILITY', and 'COMFORT (COOLING)'. To the right, a horizontal scale from 0 to 100 is shown, with a green bar indicating the product's score of 88. The scale is labeled '0-100 Scale' and 'OVERALL SCORE'. The lowest rated air conditioner is at 31 and the highest rated is at 90. Below the scale, it says '(As of June 2024)'. On the left side, there is a section titled 'About CR Air Conditioners Testing' with three statistics: '125 RATED', '33 RECOMMENDED', and '1881 HOURS OF TESTING'. At the bottom of the page, there is a disclaimer: '*Consumer Reports does not endorse products or services'. To the right of the page, there is an image of the LG LW1222IVSM air conditioner with a 'RECOMMENDED' badge overlaid on it.
